NEW HAVEN HOSPITAL

Eighty-Ninth Annual Report

of the

GENERAL HOSPITAL SOCIETY

of

CONNECTICUT

For the Year

1916

NEW ISOLATION PAVILION

EIGHTY-NINTH ANNUAL REPORT
of the
DIRECTORS OF THE
General Hospital Society
of
Connecticut

FOR THE YEAR 1916

Presented at the Annual Meeting
October, 1916

NEW HAVEN :
PRESS OF THE WILSON H. LEE COMPANY

1916

Admission of Patients

1. Applications for the admission of patients should be accompanied by a certificate from some reputable physician, stating the nature and probable duration of the disease, and should be addressed to the Superintendent of the Hospital, New Haven, Conn. In accordance with the regulations of the hospital, the Superintendent, as the representative of the Executive Committee, arranges the terms of admission according to the circumstances of the case and the accommodation required.

2. The nursing is performed by the Connecticut Training School for Nurses.

3. The ordinary charge per week for accommodation in the wards is \$8.75, which includes medical and surgical attendance, together with medicine, nursing and washing. The charge for ward patients in the *Isolation Hospital* is \$14 per week.

4. Private rooms are furnished at \$30.00 or more per week, according to the requirements of the case. There is a limited semi-private room service at \$16 per week.

5. Town patients are received in the general wards at \$7.00 per week; in the *Isolation* wards at \$14 per week.

6. Soldiers enrolled on the State quota in the Civil war, or in the quotas of other States if residents of Connecticut at the time of enlistment, and now residents, are admitted as State patients on an order from the executive officer of the Soldiers' Hospital Fund.

7. Sailors whose support is provided for from the marine hospital fund are admitted on an order of the Collector of the Port of New Haven.

8. Persons carried directly to the hospital from the place of an accident are immediately admitted.

9. A written history of the case should be sent with the patient.

10. *Insane persons* are not admitted.

11. Persons suffering from uncomplicated pulmonary tuberculosis are not admitted to the wards.

Report of the Directors

(The following report of the Executive Committee is adopted and transmitted to the Society as the report of the Directors.)

TO THE DIRECTORS OF THE GENERAL HOSPITAL SOCIETY OF CONNECTICUT:

Gentlemen:

The Executive Committee respectfully submits the following report for the year ending September 30, 1916:

Number of Patients.	1916	1915	Increase	Decrease.
Number of patients remaining October 1, 1915.....	192	198		6
Admitted.....	4207	3609	598	
Total.....	4399	3807	592	
Discharged.....	3738	3310	428	
Died.....	423	305	118	
Remaining October 1, 1916....	238	192	46	
Emergency cases not included..	777	359	418	
Whole number treated.....	5176	4166	1010	
Births (not including 26 still)...	224	184	40	
Largest number patients any one day.....	261	249	12	
Smallest number patients any one day.....	183	167	16	
Largest number persons any one day.....	518	511	7	
Smallest number persons any one day.....	420	399	21	
Daily average patients.....	224.3	210.2	14	
Daily average nurses, matrons, maids dormitory.....	108	105.5	2.5	
Daily average all others.....	167.7	136.6	31.1	
Daily average, total.....	499.9	453.99	45.91	
Cost of food per person.....	.334	.324	.01	
Ambulance Calls.....	1409	1023	386	
Average length time per patient	18.65	20.15		1.5
Hospital days, patients.....	82062	76720	5342	
Hospital days, nurses.....	39541	38505	1036	
Hospital days, all others.....	61366	50867	10499	
Hospital days, all persons.....	182969	166092	16877	
Hospital days, Day Camp.....	10368	8110	2258	

The use of the Charity Funds during the past year will appear from the following table:

Funds.	No. of Patients.	Weeks Occupied.	Daily Average.	Sundry Charges.	Paid by Patients.	Drawn from Funds.	Total Cost.
Marett.	130	475 $\frac{5}{8}$	9.1	\$33.80	\$48.29	\$6,923.30	\$6,971.59
Gifford.	15	378	7.2	8.00	110.00	6,015.85	6,125.85
English.	6	77	1.5	3.00		1,294.65	1,294.65
Foote.	149	312 $\frac{3}{4}$	6	431.58	3.62	5,188.76	5,192.38
Free Beds. . .	143	529	10	311.30	45.20	9,055.54	9,100.74
General. . . .	443	1,772	33.8	\$787.68	\$207.11	\$28,478.10	\$28,685.21
	92	171	3.3				
	535	1,943	37.1				

The general classification of patients is as follows:

Classification of Patients.	Number of Patients	Weeks occupied	Rate	Revenue from Patients.	Cost at \$15.55	Loss.	Profit.
U. S. Marines. . .	10	35 $\frac{3}{4}$	7	\$252.00	\$548.69	\$296.69	
State Soldiers. . .	12	106 $\frac{2}{3}$	6	684.82	1,652.74	967.92	
Cities and Towns	214	1,171 $\frac{7}{8}$	4	6,966.82	18,211.27	11,244.45	
			5				
			7				
Self Pay, wards. .	2599	5,954 $\frac{1}{2}$	8 $\frac{3}{4}$	51,398.09	92,525.95	41,127.86	
Self Pay, isolation	378	1,140 $\frac{1}{2}$	14	14,243.79	17,729.22	3,485.43	
Charity.	392	1,485 $\frac{1}{2}$			23,093.97	23,093.97	
Free Beds.	143	529			8,225.95	8,225.95	
Self Pay in Private and Semi Private	651	1,302	16 to 35	30,457.22	20,246.10		\$10,211.12
Totals.	4399	11,723 $\frac{1}{2}$		\$104,002.74	\$182,233.89	\$88,442.27	\$10,211.12
Special charges. .				20,937.14			20,937.14
				\$124,939.88	\$182,233.89	\$88,442.27	\$31,148.26
Profit.						31,148.26	
Balance of loss on patients excluding State Appropriation. . . .						57,294.01	
State Appropriation.						\$10,000.00	
Net loss on patients.						\$47,294.01	
Income from invested funds and other sources.						50,327.31	
Surplus.						\$3,033.30	

The following table shows the daily average of patients, the average of attendants, the weekly cost, and the daily cost of food per inmate for a period of ten years:

Year.	Daily average of Patients.	Daily average of attendants and others	Weekly cost.	Daily cost of food per inmate.
1907	183	169	12.276	.36 $\frac{8}{10}$
1908	183	177	12.546	.36 $\frac{6}{10}$
1909	159	168.6	12.562	.25 $\frac{2}{10}$
1910	159.3	170	12.483	.28 $\frac{4}{10}$
1911	157.14	175	12.725	.26 $\frac{2}{10}$
1912	172.45	187	12.145	.27 $\frac{2}{10}$
9 mos. of '13	198	205.1	12.745	.30 $\frac{8}{10}$
1914	214.87	218.11	14.712	.33 $\frac{6}{10}$
1915	210.2	241.1	15.900	.32 $\frac{4}{10}$
1916	224.2	275.7	15.55	.33 $\frac{4}{10}$

The constantly greater service which the Hospital is rendering to the community is again reflected in the statistical tables for the year, which show a daily average of 224—greater by ten than the daily average of any previous year—and that the whole number treated was 5,176, an increase of 1,010 over the previous year.

The increase in ward rates from \$7.00 per week to \$8.75 per week has resulted in a surplus for the year of \$3033.30. This result is gratifying and verifies our estimate that under the conditions then prevailing, the increased rate would make our income about equal to our expenditures without imposing any improper burden upon the patients. The constantly increasing cost of labor and supplies, and the maintenance and operation of the new Administration and Pathological Buildings will offset the increase in revenue during the coming year, and it will be necessary to secure an increase in the general fund, or in our annual contributions to income, in order to avoid a deficit in the future, particularly when conditions justify the building of the new Fitch Ward for the treatment and care of children. This ward is much needed and its construction should be commenced as soon as practicable after our present building operations are completed.

As shown in greater detail in the following paragraphs, the year has been essentially one of building construction. The extent of this work is strikingly shown by the fact that when this construction work is completed the capacity of the Hospital will be increased about one-third.

Steady progress in the construction of the buildings of the new tuberculosis hospital and in the work on the grounds has been made. All of the buildings have been constructed and roofed in and will be enclosed before the winter season. The bad building conditions which have existed have delayed the work considerably, but no more than was reasonably to be expected in so large a building operation. The greatest progress has been made in the work of constructing the necessary driveways and in grading and beautifying the grounds. The directors have fully realized the opportunity which this particular site presented for securing a fine outlook and attractive surroundings—elements of the greatest importance in the care and treatment of this class of patients. We confidently believe that this institution, combining the elements of suitable location, fine buildings, complete equipment and attractive grounds, will be the finest of its kind in the country and in every respect a model institution. It is expected that the hospital will be in operation next summer.

The Administration Building and the Anthony N. Brady Pathological Laboratory, on the hospital grounds, have been constructed and nearly roofed and closed in. They will be ready for occupancy in the spring and will greatly facilitate the administrative and medical work of the hospital.

The new X-Ray department of the hospital, paid for out of the surplus of the Brady Fund, is nearly completed and will furnish vastly better facilities for X-Ray work than have heretofore existed in this community. The department consists of a waiting-room, fluoroscopic room, an X-Ray room and all the necessary incidental facilities for X-Ray work. The hospital has also provided a new and much improved dark room in the basement of the hospital very near the new X-Ray department. When the X-Ray plant is completed it will be satisfactory in all respects, except that on account of lack of funds, we have not been able to provide for X-Ray *treatment*. This is very important, and could be provided with an additional endowment of about \$1,500.00.

In order to facilitate the out-of-door treatment of patients in the contagious hospital, a new tile floor has been placed on a large portion of the roof.

The capacity of the heating and power plant has been increased by the installation of a new boiler of sufficient size to take care of the present new buildings and those contemplated for the immediate future. Incidental to the establishment of a new boiler and

the necessary extension of our system, the heating system in the old buildings has been changed from the gravity to the vacuum system. The plans for the new refrigerating plant are about completed and this plant will be installed in the near future.

Plans are also nearly completed for enlarging the nurses' dining room and providing a new serving room.

Necessary additional quarters for nurses have been secured by fitting up a new annex on Howard Avenue next to the Alderman house which was fitted up for the use of the nurses about two years ago, and the nurses' home has been improved and refurnished. Further alterations on the third story of the nurses' home are to be made for the accommodation of six maids.

In order to provide future accommodations for nurses and employees the hospital has purchased three houses on Howard Avenue opposite the nurses' home and adjoining the two houses previously purchased. Many minor improvements have been made in the old Administration Building and in the wards of the hospital.

The completion of the new buildings and of the additions and improvements above enumerated will not only greatly improve the present service of the hospital, but will furnish in addition facilities heretofore lacking in this community, notably, the new tuberculosis annex, the new pathological laboratory and the new X-Ray department. In large part, this is the accomplishment of many years of effort. While it is a great satisfaction to secure these tangible results, it is important that we should emphasize the fact that the hospital plant is far from complete and that further additions and improvements cannot be much longer delayed.

For many years the demand for private room service has been far greater than the hospital could supply. The present operating facilities and the facilities for pathological work are as good as it is possible to obtain, and those who demand private rooms should no longer be denied the opportunity of taking advantage of these facilities. As was stated in our last report, our general funds are insufficient to justify the building of a private ward without a large addition to our endowment, or a generous gift for this purpose. The greatest service which anyone could render to the hospital at the present time would be a gift of an amount sufficient to build and equip a private ward building.

Other important needs are a convalescent pavilion, a psychopathic pavilion, a complete equipment for physical therapy, additional and better quarters for male and female help, a new service building when a new private ward is completed, an extension of the iron fence about the new buildings, the enlargement of our electric lighting plant and a remodeling of the east and west wards.

The thanks of the hospital are due to the administrative officers and employees of the hospital and of the Training School and to the attending and house staffs for their efficient services, and to many friends who have contributed money and personal service during the past year.

During the year the hospital has received from the estate of George W. Mallory the sum of \$5,000, to establish a free bed for six months; from the estate of Edwin Barnett the sum of \$2,000, for the general fund; from the estate of Elizabeth Hall \$89,459.39, for the general fund, and from the estate of Justus S. Hotchkiss the sum of \$50,000, the income of which is applicable to the general uses of the hospital.

Respectfully submitted,

HARRY G. DAY,	} <i>Executive Committee.</i>
GEORGE BLUMER,	
THOMAS W. FARNAM,	

NEW HAVEN, CONN., OCTOBER 26, 1916.

Report of the Medical Board

NEW HAVEN, Oct. 1, 1916.

To the Directors of the General Hospital Society of Connecticut:

GENTLEMEN:—The following list of the medical, surgical, and obstetrical cases treated in the Hospital during the year ending September 30, 1916, is herewith submitted as the report of the Medical Board.

Very respectfully,

RICHARD F. RAND,

Secretary.

Treasurer's Report

To the General Hospital Society of Connecticut:

The Union & New Haven Trust Company, as Treasurer of the General Hospital Society of Connecticut, submits, herewith, its report for the fiscal year ending September 30th, 1916.

The accounts have been audited by Lybrand, Ross Bros. & Montgomery, Certified Public Accountants, and the Schedules herewith presented have been prepared under their supervision.

Respectfully submitted,

THE UNION & NEW HAVEN TRUST COMPANY,
HENRY L. GALPIN,
Secretary.

October 26, 1916.

STATEMENT OF SPECIAL FUNDS.

LUCY H. BOARDMAN FUNDS of \$173,085.81 for the erection and maintenance of a new central administration building. From the principal of this fund there was expended during the year \$67,471.70 for the construction of the new administration building. The income from this fund, amounting to \$9,972.45 was added to the principal.

FREDERICK L. DIBBLE FUND of \$250. The income of \$12.13 was added to the general fund and was expended for the purchase of medical books.

ANNIE R. WINCHESTER DYE FUND of \$16,785. The income from this fund, amounting to \$813.96 was added to the income from the general fund and applied against the general expenses of the Hospital.

JAMES E. ENGLISH FUND of \$25,844.29. From the income of \$1,253.22 and the balance of \$368.35 remaining from last year, \$1,269.57 was expended for the support of patients on beds, leaving an unexpended balance of \$352.00 at the end of the year.

EMILY M. FITCH FUND of \$93,760.70 for the erection of a ward for children to be known as the William Fitch Ward. The income of \$4,288.98 was added to the principal of the fund.

EDWIN FOOTE MEMORIAL BEQUEST FOR THE ENDOWMENT OF FREE BEDS IN PERPETUITY of \$152,453.81. From the income of \$7,396.21 of this fund, \$73.93 was applied against the overdraft at October 1, 1915, and \$5,255.80 was expended for the care of patients on beds supported by this fund, leaving an unexpended balance at September 30, 1916, of \$2,066.48.

ELLEN M. GIFFORD'S FUND of \$50,870.73 for the support of free beds for deserving incurable patients. The income of \$2,466.77 was expended for the care of patients on beds supported by this fund.

ELLEN M. GIFFORD'S FUND of \$245,978.85. From the income of \$12,037.57, together with the unexpended balance at October 1, 1915, \$565.37, there was \$3,427.03 expended for the care of patients on the beds of this fund. The income balance remaining at September 30, 1916, amounting to \$9,175.91, was transferred to the General Fund, Income Account, in accordance with the vote of the directors at their July meeting.

JUSTUS S. HOTCHKISS FUND of \$50,000. The income from this fund, amounting to \$790.95, was added to the General Fund, Income Account, and applied against the general expenses of the Hospital, in accordance with the terms of the bequest.

SAMUEL E. MERWIN FUND of \$700. The income of \$32.93 was added to the principal of the general fund and applied against purchases of shrubs and flowers.

PHILIP MARETT FUND of \$155,460.10 for the support of free beds for poor patients, preferably for those incurably afflicted. From the income of \$7,736.81 and the income balance of \$711.79 remaining from last year, \$6,957.10 was expended for the support of patients on beds of this fund, leaving an income balance unexpended at September 30, 1916, of \$1,491.50.

TUBERCULOSIS FUND of \$1,117,247.61 for the erection and maintenance of a Tuberculosis Annex. During the year there was expended from the principal of this fund \$70,311.19 for land improvements, \$247,558.01 for construction of the Tuberculosis Annex and \$7,884.71 for equipment. From the income of \$59,583.52 there was expended for the maintenance of the Day Camp \$6,692.64, and for the general expenses of the Tuberculosis Annex \$5,713.63. The remainder of the income, \$47,177.25 was added to the principal of the fund.

FRANCIS BACON FUND of \$5,000. The income of \$242.47 was transferred to the Orthopedic Fund principal and will be applied against purchases of orthopedic and prosthetic apparatus.

FREE BED FUNDS aggregating \$223,856.31. During the year there was added to the principal of these funds \$5,000 received from the estate of George W. Mallory. From the income of \$10,858.77, together with the income balance of \$761.99 remaining from last year, \$9,171.40 was expended for the care of patients on free beds, leaving a balance in the income account at September 30, 1916, of \$2,449.36.

SOCIAL SERVICE FUND. The receipts from subscriptions and donations during the year amounted to \$2,109.87, and from this, together with the balance at October 1, 1915, of \$395.85, there was expended for salary and expenses of social worker and relief, \$2,337.18, leaving a balance at September 30, 1916, of \$168.54.

We have audited the accounts of the General Hospital Society of Connecticut for the year ended September 30, 1916, and in connection therewith we have verified the various assets and liabilities as of that date, including the confirmation of the cash balances and the examination of the securities. Charges made to the capital accounts represent actual additions to the Corporation's property.

WE HEREBY CERTIFY that, in our opinion, the accompanying balance sheet and the income and expense statement correctly present the financial condition of the Corporation as of September 30, 1916, and its operations for the year ended with that date.

LYBRAND, ROSS BROS. & MONTGOMERY.

FORM OF BEQUEST.

I give to the General Hospital Society of Connecticut the sum of _____ dollars.

FORM OF BEQUEST OF FREE BED.

I give to the General Hospital Society of Connecticut the sum of ten thousand dollars to be used for the maintenance of a free bed for worthy poor patients.

A donation of \$10,000 establishes a free bed.

A donation of \$5,000 establishes a free bed for *six months in each year*.

Report of the Board of Visitors

To the Directors of the General Hospital Society of Connecticut:

GENTLEMEN:—In submitting our report we would say that the Board has visited the Hospital as individuals rather than as a whole board. We have been impressed with the satisfactory way the Hospital has met the pressing demands which have occurred from time to time during the past year and the efficiency with which the work has been done. Conversation with many patients has shown general satisfaction. The complaints we hear are frequently of things which are beyond remedy in the present financial condition of the Hospital.

CHARLES O. SCOVILLE, *Chairman*,
W. R. COWLES, *Secretary*,

Report of the Board of Lady Visitors

FOR THE YEAR 1916

To the Directors of the General Hospital Society of Connecticut:

GENTLEMEN:—The Ladies Board met in the fall with renewed interest and started at once to plan for the annual sale of basketry and embroidery which the patients had made. Through their efforts and the cake table we made \$176.00. This year we expect to add rag rug making and chair caning to the list of occupations taught the patients.

Following the sale our attention was turned to preparations for Christmas of which we had entire charge. A gayly trimmed tree in each ward with flowers, candy and a gift for each patient, together with the generous contributions sent in by friends made the time a very happy one. An entertainment and music added to the festivities.

During the year the library was restocked with modern fiction. With the magazines sent in we were able to distribute periodicals regularly.

In June the Ben Greet Players gave two performances from Shakespeare which netted us \$322.00.

Before asking for several things which would greatly help our work and the enjoyment of the patients we want to express our deep gratitude to the Superintendent, the Staff, the Nurses Department and the Executive Committee for their willingness and desire to grant our requests as far as financial limitations permit.

We note with pleasure the cheerfulness and contentment among the patients and general feeling of good will throughout the hospital.

The following requests are made.

(1st) That folding chairs be procured for the Chapel. At present they are borrowed from different parts of the hospital making it difficult to have entertainments often.

(2nd) That before another summer the porches for Gifford patients be screened in, and that the floor for Gifford 11 porch be raised.

(3rd) That a Social Worker be paid for by the hospital and added to our staff. The work has grown so rapidly that we are unable

with the present workers and volunteers to cover the cases with sufficient thoroughness, and the funds of our department do not permit of our adding more workers.

(4th) That the room now occupied by the Supt. of Nurses be devoted to a day nursery and dining room for the Children when the new administration building is completed.

We still hope for the linen room but know all improvements will be made when possible.

Thanking the public and all who have helped us in our work.

Respectfully submitted,

SALLY C. BUCKLAND, *Chairman.*

Report of Social Service Department

To Dr. Simon F. Cox, Superintendent of the New Haven Hospital:

As this is the fifth year of the Social Service Department the Committee plans to make a report of the five years' work under separate cover, we therefore submit a brief report of the work at this time.

Last year our staff consisted of three full time workers and two part time volunteers. We were thus able to use these workers on the Male Medical, the Women's General and the Children's wards, the plan being to have each patient interviewed as soon as possible after admission and the home visited to ascertain conditions and to make such plans as were necessary for the care of the family while the patient was in the hospital, and to arrange for the convalescent care of the patient under the best possible circumstances. The results of this plan have been so satisfactory that we earnestly hope to add two more permanent workers to the staff this fall so there will be a social worker on each acute ward.

Miss Hills of the Visiting Nurse Assn. asked us again this year to give one or two days in our department to the nurses taking the Public Health Course with that Association. We were glad to do this and four nurses spent one day each with us.

Miss Zilpha D. Smith Asst. Director of the School for Social Workers in Boston sent us a second year student for a month's experience in our wards. This student was a splendid worker and we were glad of the opportunity to give her this experience.

We feel that the increase in the work in the past year is partly due to the fact that the medical and nursing staffs are realizing more and more how the department helps in the after care of the patient and we wish to express to them our appreciation of their co-operation.

The physicians are constantly calling on the Social Service Department for funds for supplying Salvarsan to needy and in many cases innocent patients. As this treatment is expensive a special fund of at least \$100 should be available for our use for these cases.

We cannot praise too highly our volunteer assistants whose help has made many things possible the past year.

STATISTICAL TABLE FROM OCT. 1, 1915 TO OCT. 1, 1916.

No. of cases for the year	1,783
No. of cases to whom relief was given	585
No. of cases rendered slight service	1,198

CONNECTICUT

Training School for Nurses

PROSPECTUS

THE CONNECTICUT TRAINING SCHOOL is fortunate in its environment. The association with the New Haven Hospital, whose service is general and active, whose staff is composed of men of wide experience and knowledge, affords an unusual opportunity for professional study and practice. The proximity to Yale University offers advantages for general culture, as many of the lectures, recitals and exhibitions are open to the public. The woods, mountains and seashore are within easy reach, making ideal places for rest and recreation.

Applications for entrance to the school should be made to the superintendent of nurses, and if approved the applicant will be accepted as a candidate. The applicant should be between twenty-one and thirty-five years of age; and must present a certificate from a clergyman as to good moral character and from a physician as to health. A personal letter should accompany the application, giving briefly a history of her life for the past few years and her reasons and motives for desiring the education of a nurse. If such papers are satisfactory, the applicant will be received for three months' probation, and board, laundry, and a room in the Nurses' Home will be provided. An interview is preferable and the candidate may see the superintendent in her office in the Hospital Mondays, Wednesdays and Fridays from eleven to twelve-thirty o'clock.

The course of instruction is for a period of three years and consists of theoretical and practical teaching by competent nurse teachers, lectures by the attending physicians and surgeons of the Hospital and by instructors from the Medical Department of Yale University.

Nurses will be under the authority of the superintendent of nursing, and subject to the rules of the Hospital. The superintendent will have full power to decide as to their fitness for the work and the propriety of retaining or dismissing them within the three months of trial. They will receive a thorough practical training in the medical and surgical wards for men and

women, and in the private ward, which especially fits them for work in private houses. The supervisors of the wards are experienced graduate nurses who give careful personal attention to each pupil-nurse in their respective wards. A good obstetrical training is obtained in the maternity department, each nurse having the entire care of at least six cases. In the Farnam operating building each nurse is on duty from four to six weeks. A professional teacher from New York gives a course of instruction in massage. A course of three months' training in the Manhattan Eye and Ear Hospital is now arranged for those who wish to fit themselves as school nurses, also a period of six weeks in training and practice in visiting nursing under the direction of the Visiting Nurse Association.

There are daily periods of recreation and one-half a day weekly. Extra time is given Sunday and is allowed on holidays whenever possible. A vacation is allowed each year. If a nurse is ill she is cared for but is expected to make up the time lost.

After the preliminary period of three months, an allowance is given of four dollars a month the remainder of the first year; five dollars the second year and seven dollars the third year. Uniforms will be furnished from the time the pupil is accepted.

Extreme care will be taken in the selection of nurses; only those best fitted for the work will be retained. Nurses will be dismissed at any time in case of misconduct or inefficiency, with the approval of the Committee of the Training School. A diploma and a badge pin of the School will be given when the full term is completed satisfactorily.

APPLICATION FOR ADMISSION
TO THE
CONNECTICUT
Training School for Nurses
THE NEW HAVEN HOSPITAL

1. Give your full name and present address. Nearest telegraph address.
2. What is your age?
3. State the place and date of your birth.
4. In what schools and places were you educated? Have you a certificate or diploma from these schools?
5. What is your height? Your weight?
6. Are you single, married, divorced or a widow?
7. If you have children, how many are there?
8. What provision will you make for them if you enter the school?
9. Have you anyone dependent upon you for support?
10. Are you free from responsibility so that you will not be called away from the school?
11. Have you always been strong and healthy?
12. What illnesses have you had, both children's and adult's?
13. Have you any disease of the lungs? Have any members of your family had any diseases of the lungs or have they a tendency to pulmonary complaints?
14. Have you any physical defect? Are your hearing and eyesight good?
15. Where, if any, was your last situation? How long were you in it?
16. What is your present employment and how long have you been so employed?
17. Have you been in any Training School? If so, where and for how long?
18. Have you ever nursed in a hospital or in private families?
19. To what religious denomination do you belong?
20. Give the names in full and the addresses of two persons (not relatives) to be referred to. State how long they have known you. If previously employed, one must be the last employer.
21. Have you read and do you clearly understand this paper?

I certify the above is correct and is filled in my own hand-writing.
